The EU's AI Act is the only attempt worldwide so far to regulate AI, one of the most important phenomena of our time, and to strike the right balance between controlling common interests and spooring innovation.

Learn about this groundbreaking piece of legislation, what it means for your business and what's yet to come.

Sample Agenda

This agenda is designed to foster engagement and interaction among participants, ensuring that they all leave with a clear understanding of the Act and actionable insights for their organizations.

It can be adapted to your organization's individual needs as every training includes a video (call) to optimise the training for you. For an optimal learning effect, we recommend face-to-face trainings, however, trainings can also be held online.
